

OYINLOLA FARUQ OLOWONJOYIN

PROFESSIONAL PROFILE

Creative and motivated T-Level student in Design, Surveying and Planning for Construction with hands-on experience across site engineering, interior design and multidisciplinary construction teams. Passionate about design, engineering and modern methods of construction, with strong communication, teamwork and problem-solving skills developed through placements, industry events and self-learning. Currently seeking a Level 4 apprenticeship within the built environment.

WORK EXPERIENCE

Morgan Sindall – Future Academy Programme |

Nov 2025 – Present

- Participating in a rotational program across multiple departments to gain insight into design, planning, commercial, quality assurance and project delivery roles.
- Developed an understanding of how different teams collaborate across live construction projects and project lifecycles.

Space Zero – Interior Design Placement | Feb 2026 – Mar 2026

- Worked alongside interior designers on educational interior fit-out projects for schools.
- Supported space planning, furniture layouts and learning environment design concepts.

Morgan Sindall – Site Engineering Placement | Mar 2025 – Jul 2025

- Supported the construction management team on a 22-storey mixed-use development project.
- Worked between design and construction teams to support orientation checks and measurement verification against drawings and specifications.
- Gained experience in quality assurance, site coordination and health & safety procedures.

 Manchester

SKILLS

- Construction design and digital modelling (Revit, AutoCAD and hand sketching)
- Project coordination and teamwork
- Communication and presentation skills
- Site safety, quality assurance and compliance awareness
- Microsoft Excel, Word and PowerPoint
- Creative problem solving and self-learning

Constructive Futures – Student Ambassador | Jul 2025 – Present

- Represented young people within the construction industry through events, conferences and networking opportunities.
- Promoted diversity, sustainability and modern methods of construction across the built environment sector.

Excellerate Services (John Lewis) – Store Cleaner | Aug 2025 – Present

- Maintained safe, clean and compliant working environments in line with health and safety standards and company procedures.

EDUCATION

T-Level – Design, Surveying and Planning for Construction /

The Manchester College | 2024 – 2026

- Developing knowledge in design coordination, sustainability, modular construction and digital engineering.
- Experienced in Revit, AutoCAD, Microsoft Excel and PowerPoint.
- Completed projects in construction design, project management and sustainability.

WAEC & NECO Certificates (GCSE Equivalent) /

Federal Government College, Lagos 2023

- Achieved strong grades in Mathematics (A1), English (A1), Physics (B3) and Basic Electricity (A1).
- Member of the Robotics Club and Press Club.

ACHIEVEMENTS & CERTIFICATION

- Attended UKREiiF 2026 through Constructive Futures, engaging with professionals across the built environment sector.
- Recognised for the SEND-inclusive Knowledge Quad design project with Morgan Sindall.
- Health & Safety Level 1 (ETCAL) certified and holder of a CSCS Green Card.
- Ranked 4th out of 500 students in final GCSE equivalent results.
- Team Leader for the First Lego League Robotics Competition achieved 2nd place nationally in Nigeria.

HOBBIES AND INTERESTS

- Architectural sketching and graphic design
- Technology, electronics and robotics
- Cooking and learning new recipes
- Rollerblading and table tennis
- Attending construction, engineering and networking events
- Self-development and learning emerging technologies
